One Button Push to Improve Response Times

Clearly communicate an emergency to 9-1-1, on-site personnel, and first responders in seconds. Response times are shortened and safety for all those in the immediate area is improved.

TRUSTED WHEN SECONDS COUNT

With the push of a button, the Rave Panic Button app immediately dials 9-1-1, while simultaneously sending notifications to people on-site of the incident.

The Rave Panic Button app delivers critical response data to 9-1-1 dispatchers and first responders, giving them tools to coordinate a faster and more effective response.

Trusted by schools, universities, hospitals, and corporations nationwide, because when seconds count, Rave Panic Button can help save lives.

IMPACTS ALL EMERGENCIES

In the event of an on-site crisis, an organization member can activate the Rave Panic Button app system by pushing one of the five emergency button types. Upon activation, the user's phone will immediately dial 9-1-1 and at the same time, a preset notification is delivered to all necessary personnel including staff and security. This ensures you rapidly initiate lockdowns, evacuations, or other emergency responses.

HELP ARRIVES SOONER

Rave Panic Button alerts 9-1-1 dispatchers of an emergency and who is calling. It automatically delivers critical facility data including key contacts, floor plans, and emergency response plans. This results in faster dispatch of the right resources with improved situational awareness.

INTERNAL ALERTING

Rave Panic Button's Staff Assist feature enables authorized employees to communicate with on-site groups or individuals without initiating an emergency call to 9-1-1. Internal groups and message templates are predetermined to enable fast communication and reduce the duration of disruptions.

ORGANIZATION-WIDE VISIBILITY AND CONTROL

Never miss an incident. With Rave Command View, Rave Panic Button administrators have complete visibility into every panic button activation on your campus as well as its location, incident type, and the location's facility data.

You can connect from anywhere and monitor and manage situations in real time. With floor plans and location provided, on-site responders will have enhanced situational awareness and can respond faster. Administrators can manage on-going incidents with real-time messages to staff and personnel by sending and receiving accurate updates as events unfold.

SAFETY INNOVATION FROM A TRUSTED SOURCE

"It's the only solution we've seen that provides the immediate cross organizational communication needed during an emergency."
