

STATE AND LOCAL GOVERNMENT PRIMARY USERS
 Exclusively for state and local government primary user public safety entities
 and their agency paid users with a FirstNet mobile plan

FirstNet Enhanced Push-to-Talk (EPTT) Bolt-on Plan

NOW AVAILABLE ON THE FIRSTNET EVOLVED PACKET CORE *

FirstNet Enhanced PTT Bolt-on Plan Includes:

- Unlimited** push-to-talk in the U.S., Puerto Rico, U.S. Virgin Islands, Canada, and Mexico
- Bolt-on to any primary user FirstNet Mobile Plan
- Integrated secure messaging
- See other EPTT Users on a map for situational awareness
- Available for use on tablet, smartphone, and feature phone devices

AT&T Enhanced Push-To-Talk (EPTT) is an IP-based Push-to-Talk service that provides virtually instant group communications over 4G LTE and compatible wireless and Wi-Fi networks and serves as a powerful collaboration tool for government agencies.

AT&T Enhanced Push-To-Talk (EPTT) delivers communications solutions on a broad portfolio of devices, accessories and integration capabilities that augment legacy PTT solutions and provide a pathway to future FirstNet solutions.

Public safety users will benefit from an intuitive interface and enjoy quick and easy communications like traditional two-way radio with pre-defined talk groups and an all-in-one interface that is ideal for users migrating from, or augmenting, two-way radio systems.

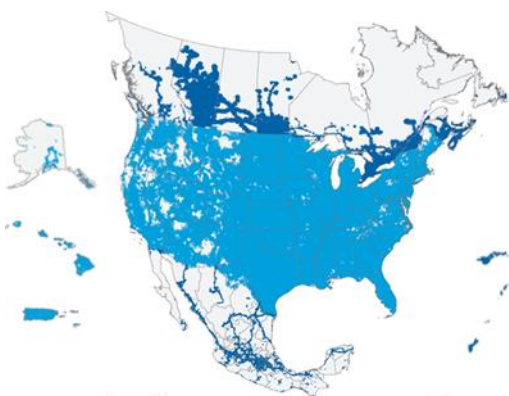

*The FirstNet Enhanced PTT Bolt-on Plan is also available for use on Primary Users' Agency Paid User lines using the AT&T commercial core, rather than on the FirstNet Evolved Packet Core. Customers using the AT&T commercial core will have different coverage and network capabilities than customers using the FirstNet Evolved Packet Core, as more fully described in the Agency Paid User's underlying FirstNet Mobile Plan. See Important Terms: AT&T commercial core for details.

** "Unlimited" refers to domestic usage of Enhanced PTT on the AT&T domestic 4G LTE network and the 4G LTE networks of rural providers connected to the FirstNet Evolved Packet Core and usage on roaming partner networks in Canada and Mexico. FirstNet Enhanced PTT Bolt-On Plan usage does not count as part of the usage or data plan allowance under a device's FirstNet Mobile Plan.

FirstNet Enhanced PTT Bolt-on Plan

EPTT Bolt-on Plan	per Agency Paid User line, per Month	\$3/mo. (after \$2 credit)
