

STATE AND LOCAL GOVERNMENT PRIMARY USERS
 Exclusively for state and local government
 primary user public safety entities
 and their agency paid users

FirstNet enhanced PTT Only Plan

NOW AVAILABLE ON THE FIRSTNET EVOLVED PACKET CORE *

FirstNet Enhanced PTT Only Plan Includes:

- Unlimited** push-to-talk on Feature Phones in the U.S., Puerto Rico, U.S. Virgin Islands, Canada, and Mexico
- First Priority™ priority and preemption capabilities¹
- Available for use with subsidized and unsubsidized devices (availability of subsidized devices varies by customer and location)
- No roaming charges in U.S., Puerto Rico, U.S. Virgin Islands, Canada, and Mexico

AT&T Enhanced Push-To-Talk (EPTT) is an IP-based Push-to-Talk service that provides virtually instant group communications over 4G LTE and compatible wireless and Wi-Fi networks and serves as a powerful collaboration tool. AT&T Enhanced Push-To-Talk (EPTT) delivers communications solutions on a broad portfolio of devices, accessories and integration capabilities that augment legacy PTT solutions and provide a pathway to future FirstNet solutions.

FirstNet Enhanced PTT Only Plans are designed for use with feature phones and are available for use with subsidized and unsubsidized devices. Primary User FirstNet Enhanced PTT Only Plans include prioritized communications using First Priority™, which is provided at no additional charge. All plans include unlimited domestic usage on the AT&T domestic 4G LTE network and the 4G LTE networks of rural providers connected to the FirstNet Evolved Packet Core. Users on other carriers' networks are subject to those carriers' charges.

Public safety users will benefit from an intuitive interface and enjoy quick and easy communications like traditional two-way radio with pre-defined talk groups and an all-in-one interface that is ideal for users migrating from, or augmenting, two-way radio systems.

*EPTT is also available for use on the AT&T commercial core, rather than on the FirstNet Evolved Packet Core, for customers that have a demonstrated need for capabilities that are currently only available on the AT&T commercial core or have non-FirstNet Capable equipment that cannot be immediately replaced. Customers using the AT&T commercial core will have different coverage and network capabilities than customers using the FirstNet Evolved Packet Core; for example, First Priority™ is only available on the FirstNet Evolved Packet Core. Customers using the AT&T commercial core may be required to migrate to the FirstNet Evolved Packet Core at an appropriate time. See Important Terms: AT&T commercial core for details.

** "Unlimited" refers to domestic usage of Enhanced PTT on the AT&T domestic 4G LTE network and the 4G LTE networks of rural providers connected to the FirstNet Evolved Packet Core and the networks of roaming partners in Canada and Mexico. Limited to Enhanced PTT service only; no voice (including 911 service) or data services are enabled.

¹ First Priority™ requires a 4G LTE-compatible, FirstNet Capable feature phone device provisioned with Enhanced PTT using a FirstNet Trio Subscriber Identification Module (SIM) card. Limited to Enhanced PTT data traffic originated on and traversing over the AT&T 4G LTE network and the 4G LTE networks of AT&T's domestic rural providers connected to the FirstNet Evolved Packet Core. Customers using an AT&T SIM card on the AT&T commercial core will have the priority and preemption capabilities of AT&T Dynamic Traffic Management—Public Safety.

FirstNet Enhanced PTT Only Plan

EPTT Only Plan – Unsubsidized Feature Phones (Available with feature devices purchased at full price or with a qualified installment agreement, or other Enhanced PTT capable customer-owned or customer-provided device)	per Agency Paid User line, per Month	\$14/mo. (after \$8 credit)
EPTT Only Plan- Subsidized Feature Phones (Available with device purchased at subsidized price. After two years, plan price reverts to rate associated with the plan for use with an unsubsidized device. Some customers purchasing a subsidized device under a term commitment may incur a fee for early termination)	per Agency Paid User line, per Month	\$22/mo.

FIRSTNET ENHANCED PTT ONLY PLANS (FirstNet Evolved Packet Core): Require a FirstNet Subscriber Information Module (SIM) card in a FirstNet Capable device. **Eligibility:** This FirstNet Enhanced PTT Only Plan is available only to State and Local Government Public Safety Entities that are Primary Users and only for Agency Paid User lines of service. **Definitions:** **Public Safety Entities** are entities authorized by the First Responder Network Authority to obtain services under the FirstNet program. **Primary Users** are those Public Safety Entities that act as first responders, i.e., those entities whose primary mission and job function is to provide services to the public in the area of law enforcement, fire protection, emergency medical services, Public Safety Answering Point/911 call dispatching and emergency management. **Agency Paid Users** are individual employees and contractors of a Public Safety Entity who are granted access to a FirstNet Enhanced PTT Only plan for which the Public Safety Entity is financially responsible. **FirstNet Evolved Packet Core Limitations:** The FirstNet Evolved Packet Core is designed primarily for domestic use by Public Safety Entities, with planned additional capabilities for Wi-Fi-calling, wearables, Public Static IP Addressing, Advanced Messaging and international voice and data roaming capabilities outside of Mexico and Canada. These features will be supported in the future. See www.firstnet.com/features for details. **International Roaming Blocking Feature:** All FirstNet Mobile plans are provisioned with the International Roaming Blocking Feature. Customer must remove the feature to roam in international locations other than Canada and Mexico. There is no charge to remove this feature, but international roaming (when available) outside of Canada and Mexico will be subject to additional charges. **Plan use is available in the United States, Puerto Rico, U.S. Virgin Islands, Canada, and Mexico.**

BUSINESS AGREEMENT: Eligible customers must have a qualified AT&T wireless service agreement ("Business Agreement"). Plans are subject to the terms of (1) the Business Agreement; (2) the AT&T FirstNet Solution Service Guide (the "Service Guide") when incorporated into the Business Agreement; and (3) this document and all other related Sales Information. **Pricing:** Prices are for service only. **Devices:** Sold separately. **Devices must be FirstNet Capable.** See www.firstnet.com/devices for current list of FirstNet Capable devices. Installment plan charges and other device purchase costs are extra. A limit on the number of financed devices per wireless account may apply. **FirstNet EPTT Plan Charges:** The monthly service charge for the FirstNet Enhanced PTT Only Plan for use with a subsidized feature phone device is \$22. The monthly service charge for the FirstNet Enhanced PTT Only Plan for use with unsubsidized devices is \$22 less a credit of \$8 for a net price of \$14. If an Agency Paid User's device is upgraded to a subsidized feature phone or data device, then Customer will not be eligible for this credit. The FirstNet Enhanced PTT Plan(s) are not eligible for any service discount or other discount set forth in the Business Agreement.

DATA: For use in the United States, Puerto Rico and the U.S. Virgin Islands (the "Domestic Coverage Area" or "DCA"), Canada and Mexico only. Outside the DCA, Canada and Mexico additional international roaming charges will apply. See att.com/broadbandinfo for details on AT&T network management policies. **FirstNet Enhanced PTT Only Plan:** First Priority™ and this Plan may not be used with any device or equipment that is intended to, or is used to, establish a continuous, unattended connection to the 4G LTE networks used to provide FirstNet services, including, but not limited to, automatic data feeds, mobile video transmissions, and automated machine-to-machine connections.

FIRST PRIORITY™: Feature provides prioritization of data, priority access to available network resources, and preemption capability. **Requirements:** Agency Paid User Lines must have the Enhanced PTT only plan and a 4G LTE-compatible and FirstNet Capable feature phone device. **Pricing:** No additional charge for Primary User Public Safety Entity Agency Paid User lines. **Limitations:** Feature is available only in the DCA (excluding other U.S. Territories) and only for Enhanced PTT data traffic originated on and traversing over the AT&T domestic 4G LTE network and the 4G LTE networks of AT&T's domestic rural providers connected to the FirstNet Evolved Packet Core. Feature may not be used for Internet traffic other than Enhanced PTT data traffic. **Data Prioritization:** Feature does not prioritize data traffic ahead of all other data traffic; other traffic may have the same or higher prioritization. **Priority Access:** Feature provides priority access to the available network resources of the AT&T domestic 4G LTE network and the 4G LTE networks of AT&T's domestic rural providers connected to the FirstNet Evolved Packet Core. **Preemption Capability:** In conjunction with priority access, grants Customer and its Agency Paid Users the ability to remove or reassign active sessions from other lower priority users' use of the AT&T domestic 4G LTE network and the 4G LTE networks of AT&T's domestic rural providers connected to the FirstNet Evolved Packet Core when network resources are scarce or occupied. Preemption capability is provisioned as a standard feature on Agency Paid Users' network profile. Available network resources may vary by circumstances and network demands. **First Priority™ Incident Management:** Provides Primary User Public Safety Entities' designated and authorized communications managers the ability to modify the relative priority and preemption capabilities of the Authorized Users of both Primary User and Extended Primary User Public Safety Entities for a period of up to 24 hours through the use of the First Priority™ Incident Management portal. **Termination or Suspension:** AT&T reserves the right to terminate, suspend or restrict the feature if use is inconsistent with applicable terms and conditions; the Business Agreement; or Service Guide.

GENERAL WIRELESS SERVICE TERMS: Service is not for resale. Other restrictions apply and may result in service termination. If Customer purchased a subsidized device that requires a term commitment, an Early Termination/Cancellation Fee applies if Customer cancels Agency Paid User service after the first 30 days and before the Agency Paid User Line service term ends. See att.com/equipmentETF for details on what fee may apply to device and how the fee is prorated over time. Activation/upgrade fee per line (up to \$45) and deposit may apply. Credit approval may be required. AT&T reserves the right to suspend or terminate service to Customer's account, place any non-complying device on an appropriate plan, and/or add any other required element of a plan. **Other Monthly Charges:** Apply per line and may include taxes, federal/state universal service charges, a Regulatory Cost Recovery Charge (up to \$1.25), a gross receipts surcharge, an Administrative Fee, and other governmental assessments (including w/out limitation a Property Tax Allotment surcharge of \$0.20 – \$0.45 applied per Agency Paid User's assigned number), which are not government-required charges. **Pricing, fees, promotions, options, restrictions and terms subject to change and may be modified, discontinued or terminated at any time without notice. Invoicing Limitation:** FirstNet plans are not eligible for combined (wireless/wireline) billing. **Coverage:** Coverage map shows high level approximation of areas included in and out of plan. For the most current coverage info, check wireless.att.com/coverageviewer. Coverage may include areas served by unaffiliated carriers and not on AT&T's owned and operated network (off-net). Arrangements with these carriers may change from time to time, and coverage is subject to change without notice.

FIRSTNET ENHANCED PTT ONLY PLAN (AT&T commercial core): All "Important Information: FirstNet Evolved Core" applies, subject to the exceptions below.

Requires a 4G LTE device provisioned with an AT&T SIM card.

FirstNet Evolved Packet Core Limitations: Not applicable.

DATA: For use in the United States, Puerto Rico and the U.S. Virgin Islands (the "Domestic Coverage Area" or "DCA"), Canada and Mexico only. Not available for use outside the DCA. See att.com/broadbandinfo for details on AT&T network management policies. **FirstNet Enhanced PTT Plan:** Customer's usage of AT&T Dynamic Traffic Management—Public Safety and this Plan may not be used with any device or equipment that is intended to, or is used to, establish a continuous, unattended connection to the 4G LTE networks used to provide FirstNet services, including, but not limited to, automatic data feeds, mobile video transmissions, and automated machine-to-machine connections.

FIRST PRIORITY™: Not available.

AT&T DYNAMIC TRAFFIC MANAGEMENT—PUBLIC SAFETY: Feature provides prioritization of data, priority access to available network resources, and preemption capability. **Requirements:** Agency Paid User Lines must have a qualified FirstNet Mobile data plan and a 4G LTE-compatible device provisioned with Approved Business Applications. **Pricing:** \$0 (\$15 billed surcharge per Agency Paid User is credited back \$15 each month for a net price of \$0). Surcharge not prorated. **Data Prioritization Usage Limitation:** For FirstNet Mobile—Unlimited Plans, as set forth above. **Approved Business Applications:** Approved Business Applications are limited to applications directly related to the primary missions of Public Safety Entities such as EPTT, and they exclude such applications as mobile video transmission applications and applications that transmit data to and from the Internet. AT&T reserves the right to review applications used with feature. **Limitations:** Feature is available only in the DCA (excluding other U.S. Territories) and only for Customer's Approved Business Application data traffic originated on and traversing over the AT&T-owned domestic 4G LTE network. Feature may not be used for Internet traffic other than Customer's Approved Business Application data traffic. **Data Prioritization:** Feature does not prioritize Customer's Approved Business Application data traffic ahead of all other data traffic; other traffic may have the same or higher prioritization. **Priority Access:** Feature provides priority access to available AT&T 4G LTE network resources. **Preemption Capability:** In conjunction with priority access, grants Customer and its Agency Paid Users the ability to remove or reassign active sessions from other lower priority users' use of the AT&T-owned domestic 4G LTE network when network resources are scarce or occupied. Preemption capability is provisioned as a standard feature on Agency Paid Users' network profile. Available network resources may vary by circumstances and network demands. **Termination or Suspension:** AT&T reserves the right to terminate, suspend or restrict the feature if use is inconsistent with applicable terms and conditions; the Government Agreement; or Service Guide (if applicable).

GENERAL WIRELESS SERVICE TERMS: **Coverage:** Coverage in Canada and Mexico for these plans is not the same as the plans using the FirstNet Evolved Packet Core. "Unlimited" refers to domestic usage of Enhanced PTT on the AT&T Mobility cellular network and networks of roaming partners in Canada and Mexico.
