

Activate your eSIM for iPhone: Upgrades

Detailed steps:

1. No need to remove any physical SIM from the device. iPhone 14 series doesn't not have a SIM in the device.
2. Turn on the device
3. Follow the device setup instructions. If setting up from a previous iPhone, recommend to choose **Quick Start** when prompted. Otherwise, select **Setup Manually**
4. Select available Wi-Fi network OR **Continue without Wi-Fi**

5. Continue to follow on device prompts. Customer confirms phone number and billing or shipping Zipcode.

Activation
